For Your Health and Wellness!

Nutronco Flaxseed Oil is rich in **Healthy Omega 3, 6 and 9 Fatty Acids**, and helps support a **Strong Immune System**. It also helps **Fight Oxidative Stress**, and **Supports Digestive Health**. **Nutronco Flaxseed Oil** is **Virgin Cold Pressed**. "Cold Pressed" is a term used to describe the way oil is extracted from its source. The process involves the use of granite millstones or more modern stainless steel presses to press the seeds and extract their oils. The process generates heat through friction, but in order for an oil to be classified as cold pressed, this heat must be kept below 120 degrees Fahrenheit. When heat is applied to flaxseed oil, its **Omega-3 Fatty Acids** can be destroyed, thus eliminating the health benefits of these **Cardioprotective Nutrients**. Further, the acidity of the oil increases as it is exposed to oxidants and aggressive environments. **Nutronco Flaxseed Oil** is created using low or no heat, resulting in an oil that has a much lower acidity level, and preserves the nutrients for **Optimal Nutritional Value**. We never process our oil with harsh chemicals, and as with all our products, always follow GMP (Good Manufacturing Practices) in an FDA approved facility. **Nutronco Flaxseed Oil** is **Recommended by Oncologists**.*
